RE: Site Inspection, Barrick Mercur, M/045/017, Salt Lake County, Utah

Date of Inspection: July 14, 1992

Time of Inspection: 3:00 p.m. - 6:00 p.m.

Conditions: Sunny, warm

Participants: Dave Beatty, Ralph Sacison, Steve Johnson, Barrick Mercur; Phil Allard, Gary Wisser, BLM; Holland Shepherd, Tony Gallegos, DOGM

Purpose of Inspection: To evaluate the operator's proposal to reconfigure the Sunrise dump.

The operator's proposal will allow for more gradual slopes on the dump (2.5:1) and less road disturbance, although the regraded dump will extend beyond the disturbed area boundary. The operator is grading out the dump now by moving material from the top down with a dozer. The operator will put together a proposal that will address the questions raised during our discussions onsite. The proposal seems superior to the original so there should not be much of a problem getting it changed.
